Welcome to Canvas!

Students

As of Fall 2021, all Swedish Institute courses are in Canvas. iTunesU is losing functionality and will be discontinued after 2021. This document contains instructions to on getting started as well as links to Canvas resources and information on getting help.

## Log-in and accessing your Courses

Logging in: You can log in here with your swede.me email. helpdesk@swedishinsitute.edu for log-in help. OR download the Canvas Student app for iOS/android. Some features may act strangely on the app so if you run into problems on your iPad app try logging in via Safari. Note: you will have to log-out of any other Google accounts (gmail) on your device in order to log in.

After logging in you can see your dashboard. You won't see courses until they have been published by your instructor. Please email jbrodeur@swedishinstitute.edu with any concerns.

Swedish Institute Resources

To the right is a preview of and link to our resource library and orientation course for Students. This course is regularly updated and contain visual guides, videos, and other resources for nearly all aspects of using Canvas. We recommend you spend some time playing around with this course and exploring the modules to familiarize yourself with Canvas.

As these are continually being developed feedback is appreciated and can be sent to jbrodeur@swedishinstitute.edu

The Student Orientation Course can be accessed from your dashboard or via this link.

Getting Help

There are a number of ways to get help with Canvas. Don't hesitate to reach out!

- Check the official Canvas Guides
- Chat Live with Canvas Support
- email the helpdesk at helpdesk@swedishinstitute.edu
- email jbrodeur@swedishinstitute.edu
